

Letter of Intent

Dear Bozoq Teknoloji A.Ş.,

We, **Mediples Co., Ltd**, have had the privilege of serving as the official distributor of *Ela Traction Tower* and consumables, produced by Bozoq Teknoloji A.Ş., in Korea. Over the course of our collaboration, we have come to highly appreciate the strength of your brand, the excellence of your products, and the mutual trust built through our partnership.

Looking ahead, we are very interested in the upcoming product range you are preparing to launch, including the *Robotic Deformity Correction Fixator* and other External Fixators.

We would be delighted to integrate these innovative solutions into our portfolio and actively promote and distribute them in our market alongside the current product line.

It would be an honor for us to expand our distributorship with Bozoq Teknoloji A.Ş. to encompass these new products as well, further strengthening the cooperation between our companies.

Sincerely,

SUNGSOO CHOI
