

Letter of Intent

Dear Bozoq Teknoloji A.Ş.,

We, PT. Eufratmed, have been proudly serving as the official distributor of Ela Traction Tower and consumables, manufactured by Bozoq Teknoloji A.Ş., in Indonesia for the past three years. During this period, we have greatly valued the reliability of your brand, the quality of your products, and the overall success of our collaboration.

We are also highly interested in your upcoming new product line (Robotic Deformity Correction Fixator and other External Fixators). We would like to formally express our intent to include these products in our portfolio and to distribute and promote them in our country alongside your existing products.

It would be our pleasure to extend our distributorship with Bozoq Teknoloji A.Ş. to also cover this new product line.

Sincerely,

PT. Eufrat Med
